

Manitoba:

The operator of an indoor public place must ensure that every person who is not wearing a mask while in the indoor public place is given a reminder to do so as soon as possible following entry.

In addition, employees, contractors, or operators of an indoor public place do not need to wear a mask while they are in an area where members of the public do not normally have access, or if they are behind a non-permeable physical barrier, including a plexiglass barrier.

People can temporarily remove their mask while in an indoor public place:

- to receive a service that requires the removal of their mask,
- to consume food or drink.
- to deal with an emergency or medical purpose, or
- to establish their identity.

People who do not have to wear masks include:

- a child who is under five years of age.
- a person with a medical condition that is unrelated to COVID-19, including breathing or cognitive difficulties or a disability, which prevents them from safely wearing a mask.
- a person who is swimming or engaged in other athletic activities; and
- a person who is unable to put on or remove a mask without the assistance of another person.
