

**Yukon:**

As of August 4, 2021, wearing a mask is not mandatory in indoor public spaces in the Yukon. However, we encourage you to continue wearing masks in indoor public spaces to protect:

people who are not yet eligible for getting vaccinated, such as children born after 2009; and people who are at higher risk, such as people who are immunocompromised or elderly.

This recommendation applies as long as we continue to experience increased COVID-19 activity in the Yukon.

We strongly recommend masks in indoor public settings for everyone aged 5 years and older who is not yet fully vaccinated.

Children between 2 and 4 years old can wear a mask if they tolerate it well.

Children under 2 should not wear masks.

If someone cannot remove a mask on their own, they should not wear a mask.

Businesses and organizations may choose to follow their own policies and guidelines that are stricter than this guidance
